ABOUT ME

I am a highly motivated Computer Science and Engineering student with a strong foundation in programming languages like C++, Python, and Java. I have experience working with AWS cloud services and a keen interest in web development, with knowledge of HTML and CSS. Passionate about solving real-world problems through technology, I am eager to learn and contribute to innovative projects.

SKILLS

- **Programming languages:** Python, JAVA, C++
- **Databases:** MySQL, MongoDB
- **Tools & Technologies:** Git, Linux

CERTIFICATION

- Red Hat Certified System Administrator (RHCSA)
- NPTEL **Programming in JAVA**
- NPTEL **Introduction in Machine Learning**

PROJECTS

- **Feeding Hope:** Food Donation App. Built with HTML, CSS, JavaScript and MongoDB aims to reduce food waste and fight hunger by connecting surplus food donors with those in need. The platform streamlines food collection, storage, and distribution while ensuring safety, transparency, and community participation. It encourages businesses, NGOs, and volunteers to collaborate in creating a sustainable, hunger-free society.
